

CLOTISOL®

BLOOD CLOTTING SUSPENSION

Clotisol® is an original formula blood clotting suspension used as an aid to stop bleeding in animals caused by minor cuts and wounds. **Clotisol®** can be used effectively in nail trims, beak trims, and on other minor bleeding sites.

Features:

- ◆ Effective Hemostat – Stops Most Minor Bleeding Immediately
- ◆ Protectant – Acts as “First Aid” Application While Covers and Protects Lesions
- ◆ Proven – Original Formula Used with Success for Years – Attractive Shelf Container
- ◆ Multiple Uses – Nail Trims, Beak Trims, and Minor Cuts & Wounds
- ◆ Versatile – Used by Veterinarians, Groomers, Aviaries, Breeders, Pet Owners
- ◆ Species – Dogs, Cats, Birds, Exotics

Directions: Shake well before using. To stop bleeding, apply a liberal amount directly to wound. If bleeding does not stop, consult a veterinarian.

Ingredients: Ferric Sulfate, Deionized Water, Aluminum Sulfate, Collagen Protein, Titanium Dioxide, Kaolin, Chloroxylenol, Propylene Glycol and Isopropyl Alcohol.

Packaging: Spill proof 2 oz. plastic, squirt top bottle.
