

WARTSOFF™

WART OINTMENT

Wartsoff™ Ointment is for use as an Aid in the Removal of External Warts (Papillomas) from Cattle, Horses, Goats and Dogs.

Features:

- ◆ Effective Aid in Removing Warts Without Causing Bleeding
- ◆ Easily Applied
- ◆ Painless Treatment
- ◆ Economical

Indications: For use in removal of external warts from Cattle, Horses, Goats and Dogs.

Contains: Castor Oil	39% (w/w)
Salicylic Acid	17% (w/w)
Inert Ingredients	44% (w/w)

Directions: Apply directly on the wart twice daily. Rub in well leaving wart completely covered with **WartsOff™**. Apply to teats and udder of dairy cows after milking. If no benefit is apparent after two weeks of treatment or for warts that grow rapidly, consult a veterinarian.

WARNING: Wash treated teats and udders before each milking. Avoid contact with eyes. Wash hands thoroughly with soap and warm water after applying this product to animals.

Packaging: 4 Oz jar (113 Gm), 12/case
